Experience	Product Designer Eden United States, Remote 2024 - 2026	Worked with the team to redesign the website and build a Figma design system. Used existing research for core pages and ran targeted studies on product pages to boost treatment conversions, delivering full component docs for a smooth handoff.		
	Product Designer Goalsetter United States, Remote 2021 - 2024	Partnered with devs to build a design system from scratch for a live mobile app. Combined past and new research to improve core flows—speeding up dev cycles, reducing onboarding drop-offs, and increasing money transfers.		
	UX/UI Designer Taligent Argentina, On Site 2015 - 2021	Led design for enterprise dashboards and data tools for global clients. Improved complex analytics interfaces to make big data easy to navigate, using my front-end background to bridge design directly with engineering.		
	Web Designer Upwork Worldwide, Remote 2013 - 2015	Designed responsive websites and web apps for international clients. Focused on clean visual hierarchy, mobile usability, and direct collaboration with independent developers to guarantee fast, accurate delivery.		
Education	Bachelor of Science in Information Technology University of Palermo 2017 - 2019			
	Bachelor of Software Development UADE University 2013 - 2016			
	Associate Degree in Graphic Design ESC 2010 - 2012
